

Presenting Superior's NEW Addition...

The **STL-RE5** Valve Body Upgrade Package

Superior's new TransLab Engineered™ part # STL-RE5 fits/services all 2004-up RE5RO1/5A Nissan and Infinity units. Our proprietary and patent pending Flow-Control™ Valve System and TCC/Lock-up circuit upgrades will allow you to tackle this complaint plagued unit with confidence.

Utilizing TransLab Engineered™ new proprietary Flow-Control™ valve system we virtually eliminated the “weak, soft slide-bump shift feel” and cleaned up the long/slide shifts, slips and flairs without making the shifts harsh. This unique function was designed to control shift feel thru the valve itself. Other common complaints found with this unit are the over pressurization of the cooler circuit, 4-5 slip/5-4 neutralizations and stabilizing the P.R. circuit which the kit also addresses. The kit also comes with new nickel coated sealing rings to address the 2-3 slip/flair issues and include our new TCC boost valve and sleeve for better control over lock-up slip and shudder.

Builders will now come to realize that sending out the valve body or having to replace it...with an expensive, often reconditioned one can now be accomplished in YOUR shop, on YOUR bench. The good news too, aftermarket solenoid manufacturing companies have the new replacement solenoids and talk is out of a new TCM switch plate coming later this year.

PART# STL-RE5

SUPERIOR'S NEW STL-RE5 TRANSLAB ENGINEERED® VALVE BODY UPGRADE PACKAGE:

- FITS 2004-UP RE5RO1A & RE5RO5A
- NEW TCC SYSTEM UPGRADES ELIMINATE LOCK- UP SLIP AND SHUDDERS
- CORRECTS SOFT/LONG 3RD, 4TH & 5TH
- REGULATES/PREVENTS COOLER OVER PRESSURIZATION & RUNAWAY LINE PRESSURES
- FIXES LONG SLIDE 1-2 SHIFT & ADDRESSES 4-5/5-4 SHIFT NEUTRALIZATION
- ADDRESSES SLIPS AND FLAIRS ESPECIALLY 2-3 SHIFT
- CORRECTS NEUTRAL TO DRIVE/REVERSE DOUBLE BUMP ENGAGEMENTS
- PARALLEL DUAL FEED DIRECT CLUTCH UPGRADES
- HELPS ELIMINATE REV LIMITER SPIKING ON MODIFIED SUPERCHARGED ENGINE TRUCKS WITH QUICKER FULLY THROTTLE (WOT) UP SHIFTS AND INCREASED LOW CLUTCH HOLDING CAPACITY
